

## **FMB-Süd 2019**

20 and 21 February 2019 | Augsburg Exhibition Centre (Messe Augsburg)

**PRESS INFORMATION**

**FMB-Süd 2019\_03**

Bad Salzuflen, 9/14/2018

### [Well-Balanced Overview Spanning the Whole Spectrum of Suppliers](#)

### **FMB-Süd 2019 with big-name exhibitors and newcomers**

**The third FMB-Süd, starting on 20 February 2019 in Augsburg, will offer its visitors an attractive blend of familiar mechanical-engineering suppliers and new contact opportunities.**

For many decision-makers in mechanical engineering and in industrial companies on technology's southern axis, the trade-fair year 2019 is launched on 20 and 21 February, with the third FMB-Süd in Augsburg. This trade fair will reflect the full spectrum of supplier industries for mechanical engineering and production, offering its visitors a well-balanced mix of global market leaders and smaller firms specialised in individual product and market segments.

Here are four examples of exhibitors participating in FMB-Süd: Kawasaki Robotics stands for the vigorous assembly technology and handling technology sector. ABB Stotz-Kontakt and Bihl & Wiedemann are two of the numerous specialists for automation and control technology presenting their product programme and their new developments in Augsburg. Likewise, Hitachi Drives & Automation ranks as one of the globally operating component manufacturers for industrial drives technology, who are strongly represented at FMB-Süd.

Yet apart from these internationally familiar firms, the visitors will also have the opportunity to get to know new exhibitors – for instance, companies from among the Netherlands' high-performance mechanical-engineering suppliers. This is because the *'Koninklijke Metaalunie'* industrial association, building upon the good resonance at FMB in Bad Salzuflen, North Rhine-Westphalia, has booked a joint stand at FMB-Süd. In Augsburg, association member companies will show their

expertise, e.g. in machining metal, in producing custom-made cast parts, and in the laser-processing of sheet metal.

There is a strong contingent of exhibitors from members of the mechatronics and automation cluster, which recommends its more than 200 member firms to take part in FMB-Süd and is also shaping the programme of lectures at the trade fair.

So visitors can already rely on getting an attractive overview across the whole supplier market at the trade fair and on having the opportunity to enter into dialogue with the suppliers.

\*\*\*

The 3rd FMB-Süd trade fair takes place on 20 and 21 February 2019 at the *Messe Augsburg* exhibition centre. An up-to-date list of exhibitors is available as a download at [www.fmb-sued.de](http://www.fmb-sued.de).
